

## Meritor Part

Meritor Parts - Meritor is a premier international supplier which is proudly founded on a 100 year tradition of service and quality. They concentrate on several modules, integrated systems and parts to original equipment makers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage within the worldwide operations. The company values all their clients and would like to guarantee their success while anticipating their different requirements. Meritor starts with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred individuals, Meritor promotes collaboration and innovation amongst a team of experienced experts.

By only hiring future focused workers, Meritor strongly believes these top-caliber individuals will be able to quickly get used to to changing environments and demonstrate the performance and commitment considered necessary to be able to attain results in the competitive materials handling trade. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor provides all of their staff various opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering which consist of axles, drivelines, suspension and braking systems designed for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is also responsible for supporting the needs of their worldwide engineering personnel.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated around the globe in 19 nations and in 5 different continents.

The supplier development network is particularly situated to support new business growth. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in every part of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is likewise comprised of transactional Green Belts who make use of Six Sigma tools to business processes and apply lean methods.
