

## Pulp Clamp

Pulp Clamp - There is a variety of forklift accessories accessible to make the machinery much more effective. A snowplow attachment can be mounted to the front part of the lift truck. A scoop bucket could be useful whenever the task requires moving gravel, snow, sand, or soil. A double block handler permits the individual operating the forklift to lift\carry two loads and stack them side-by-side. Several of these accessories are extremely ideal for light to medium tasks.

Another lift truck accessory is the package lift clamp, that could lift and move really heavy pallets. In addition, pallet crane forks may be used to lift and transfer pallets with an overhead crane. A drum clamp accessory is useful for transferring really heavy drums from place to place without having to utilize a pallet. Forklift mounted hoppers enable materials to be moved and dumped without having to handle it by hand. These hoppers are self dumping when the bumper is released.

There are also attachments obtainable which can transform the lift truck into a commercial broom or mop. These accessories are ideal for cleaning boat docks, warehouse floors and parking lots. Lift truck mounted platforms come geared up with dual entry doors and can be hooked up to move employees from one locale to another. The mounted platform attachment is great for reaching areas that are hard to access, especially when you've got products or stuff stored in out of the way areas or really up high.

It is a versatile choice to install lift truck accessories which could immediately transform a lift truck right into a mobile crane unit. This particular equipment is really useful with regards to moving loads which could be unstable or awkward. This accessory could either be mounted on the carriage itself, telescopic, or be fixed or even forklift mounted.
