

Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are currently 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in commission in North America. Clark has five main lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique brands of forklifts, with components covering more than 120,000 specialized parts for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your components needs supplied by Clark Totalift.

Clark features a exceptional Parts Supply team. The parts warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a very impressive international support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing protection features such as the worker restraint system. This exceptional commitment to safety is now a customary feature on every lift truck.

Clark's recurrent goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the globally accepted quality standard ISO 9001 for every one of their manufacturing facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing market position.

Clark has preferred the extremely economical and advantageous structure of "Lean Manufacturing" for its assembly plants and use of resources. This system was developed to acknowledge the most successful approaches of manufacturing facility management and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working together, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing expenses. The contemporary value engineering program combines progressive product growth and delivers superior consumer support and service within the industry.
